

energy management

With a simple to use touch panel interface, AMXhome Energy Management is ideal for monitoring energy consumption and managing energy usage - delivering both a cost-savings and a positive environmental impact. The Energy Manager ties into common utilities, calculates

usage and estimates monthly utility costs. Historical data lets users evaluate usage and identify usage patterns to help prevent over consumption and reduce utility expenses. Additionally, alerts advise homeowners of situations such as low tank levels.

Monitor up to 42 circuits and instantly learn when and where consumption surpasses reasonable levels. Make immediate adjustments and save money.

Monitor natural gas consumption and adjust settings to isolate historical data for analysis.

Monitor oil consumption and tank levels to forecast usage, estimate monthly cost and be alerted when tanks are running low.

Monitor propane consumption and tank levels to forecast usage, estimate monthly cost and be alerted when tanks are running low.

Monitor water usage in daily, weekly, monthly and annual increments to compare averages and make adjustments to increase efficiencies.

Turn lights on when you come home at night, turn lights off from your bedside, or set lighting presets for nighttime pathways or the perfect lighting for entertaining.

Adjust your temperature, or set a time program for temperature settings to automatically change throughout the day, or set vacation temperature levels.

energy management

With Whole Home Control, ViewStat Communicating Thermostats provide fully programmable climate control, indoor/outdoor temperature as well as a five-day forecast. In addition, up to 20 lighting and shading scenes can be controlled and the ability to view your security system and cameras from any Modero Touch Panel is just a touch away.

And Whole Home Control will look as good as it performs. From the cool blue glow of your Signature Series Controller to the eye-catching elegance of the mirror-matched Metreau Keypads, your system complements your living space and your lifestyle. Welcome to the luxury, convenience and simplicity you've only dreamed about. Welcome to AMXhome.
